# Unlocking New Revenue Opportunities with Commercial Broadband Services

ZCorum offers a comprehensive suite of services designed for your business subscribers, with seamless unified communications, robust cybersecurity, engaging entertainment, and enhanced network management with our NOC Monitoring Software. We increase the value for your business subscribers, while providing additional revenue generating opportunities for you.

## **VoIP Solutions: Seamless Communication, Limitless Possibilities**

Upgrade your business subscribers' communication capabilities with our advanced VoIP solutions. They will enjoy crystal-clear voice calls, video conferencing, and messaging, all integrated into a single platform. Our Commercial VoIP services offer popular features like Integrated Voice, video and text, Hunt Groups and IVR, Call Park and Transfer, Video Conferencing, and free local and long distance calling in the lower 48 states. We can also provide optional US-based support for your voice customers.

## **Cybersecurity Services: Protecting Your Business Subscribers**

By extending managed cybersecurity services to your valued enterprise subscribers, you are demonstrating a commitment to their security and equipping them with a defense against potential breaches within their network. Your subscribers will benefit from Live Daily Monitoring and the availability of round-the-clock dedicated security specialists for immediate assistance and expert guidance when security concerns arise. In addition, Endpoint Security ensures that their laptops, desktops, and tablets remain fortified against malware, viruses, and ransomware attacks.

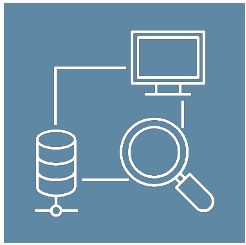

## **Help Desk Support: Supporting Your Enterprise Subscribers**

Enhance your earnings through Premium Commercial End User Support. Our team stands ready to quickly respond to any issues your clients may have with their broadband connection, and we will assist their staff with basic networking issues and support. A dedicated Commercial Support hotline provides them with swift problem resolution to help ensure uninterrupted business operations.

### **IPTV Services: Fully Featured Video Service for Your Customers**

If you are offering our managed IPTV solution to your residential subscribers, it is also a great add-on service for your business customers. Many businesses like having a video subscription for their office to enhance the atmosphere of their waiting areas, break rooms, and meeting spaces by streaming high-quality, captivating content.

### **NOC Monitoring Software: Empowering Network Management**

Empower your enterprise subscribers with control over their network through our advanced Network Management and Monitoring Software. Our solution offers Real-time Monitoring providing a comprehensive view of network health, bandwidth utilization, and device statuses. Alert Notifications instantly update your enterprise subscribers about anomalies, outages, and potential problems.

## **Why Choose ZCorum's Business Services for your enterprise subscribers?**

- ✓ **Customization:** Tailored packages to suit businesses of all sizes and industries
