#### Offer Leading-edge Voice Services to Your Business Customers

Serving your local businesses is one of the best ways to add new revenue to your bottom line, and offering commercial VoIP is a natural add-on to your broadband service. VoiSelect Digital Voice from ZCorum provides a simple, cost-effective way to enter the commercial VoIP market, increasing your revenue per subscriber and helping to reduce customer churn. Our products are scaled to meet the needs of your commercial accounts— whether a home office, small business or a larger enterprise.

We can provide everything from individual business lines all the way up to a fully-featured IP-PBX that we host in the cloud. You get all of the features you would expect from an on-site phone system at a more affordable cost, and with the convenience of a digital platform that you don't have to manage.

# VoiSelect Commercial Features

## Standard

Get our cloud-based commercial voice solution with features like auto-attendant, custom schedules, ring groups, voicemail to email and more. Your phone system is always up, even if there is a network failure or natural disaster in your area. And, there's no need for an IT team or specialized skills to manage the system. We take care of everything, from hosting to upgrades and security to maintenance.

## Advanced

With Advanced you can take your office calls and instant messages on the go. Make calls and IM from an intuitive app on your laptop, tablet or smartphone, and display the office phone number on your outgoing caller ID. Subscribe to a company contact list or share contacts with coworkers, forward voicemails to email, or get push notifications on your device.

## Professional

Our Professional level adds a feature-rich video conferencing platform to unify your communication tools with a single solution. Get HD video conferencing for up to 200 participants, moderation tools, screen sharing and integrated messaging to make collaboration easy and intuitive.
