MANAGED BROADBAND SERVICES FOR MUNICIPALITIES

[intro music]

Are you a municipality looking at rolling out broadband service to your community?

In addition to the actual connection to the customer, there are a lot of other things you need to think about.

Fortunately, ZCorum can help you handle most everything else with our affordable suite of managed broadband services.

We provision the customer device, provide DNS and email services, 24/7 end-user support, and diagnostics to help support and troubleshoot your subscriber issues.

If you want to provide VoIP service, our cloud-based VoIP offering for residential and commercial customers makes it easy.

To learn more, give us a call at 1-800-909-9441 or go to www.ZCorum.com.

1.800.909.9441

4501 North Point Parkway, Suite 125
Alpharetta, GA 30022
